ATLAS GLOBAL TRADING

Technical data summary

Bulk refined hazelnut oil

Product identity

Composition: 100% refined hazelnut oil. Raw material: hazelnuts.

INCI: Corylus Avellana Seed Oil. Reference CAS: 84012-21-5. EC: 281-667-7.

Confirm identity against the current supplier documentation for the offered material.

Published specification limits

Parameter	Reference limit
Free fatty acids	Max. 0.3%
Moisture	Max. 0.2%
Peroxide value	Max. 10 meq/kg
Density at 20 °C	0.898-0.915
Refractive index at 20 °C	1.468-1.473
Iodine value	81-92
Saponification value	188-198 mg KOH/g oil
Oleic acid	74.2-86.7%
Linoleic acid	5.2-18.7%

Supply and qualification

30 kg, 60 kg and 200 kg drums. Flexitank and tanker supply by agreement.

Agree the current specification, required methods and packaging before placing an order.

Ask for the batch COA and destination-specific SDS as part of qualification.
